

bonnit® BRUSH

“CARPET FLOOR CARE INNOVATIONS”

The Bonnit Brush carpet care system offers the best of both worlds with its deep restorative cleaning action and low moisture controllability. This innovative universal system with one tool provides multiple processes executed with one motion. The synergy of the two creates a vacuum effect lifting and removing deeply embedded dry particle matter while removing stains from your carpet. Bonnit Brush's pile lifting action helps groom the nap, eliminate traffic patterns and prolong the life of your carpet and rugs, while the quad slotted bonnit provides the ultimate absorption and drying time. The benefits of Bonnit Brush are time and labor costs savings with the best restoration carpet cleaning tool.
