**Equipment Used:**

Always wear appropriate Personal Protective Equipment.

- Microfiber Cloths-wet/dry cleaning
- Wet Vacuum
- Auto-scrubber
- Single disc floor machine
- Bonnet system
- Pump up sprayer-Sprayer system

Display wet floor signs where needed.

- Carpet Extractor/brushed
- Microfiber mop/bucket
- Quart Bottles
- Trigger Sprayers
- Bottle Labels
- *Split!* Restorative Cleaner

**Notes:**

If you can remove dry dirt first with a dry cleaning system, wet cleaning will be much easier and faster. Always follow the "Finest First" rule, which is using the less aggressive and safest method to clean the surface without damaging it. Removing Bio-Film will help to create a healthier environment in the building you are cleaning. Using detergents that leave residue, will attract more dirt and Bio-Film.
