

 Spray & Wipe Cleaning Training Card		
Cleaning Tasks:		<i>Split!</i>	Application Method
Dust surface areas to be spray cleaned with a microfiber cloth or microfiber dusting tool first.			Microfiber Dusting Cloth or Tool
Dilute Split! Non-Detergent Cleaner 16oz per gallon using a quart bottle and sprayer.		<i>Split! Non-Detergent</i>	Quart Bottle and Sprayer
For heavy soil or residue, you may use <i>Split! Restorative Cleaner</i> .		<i>Split! Restorative</i>	
Spray <i>Split!</i> on the surfaces waiting a minute or so for dwell time.			Quart Bottle and Sprayer
Wipe with a microfiber cloth.			Microfiber Cloth
You may use other cleaning tools such nylon brushes or green hand pads depending on the surface.			Nylon Brush/Green Hand Pad
When using any of the <i>Split!</i> products at 16 oz per gallon, you will remove Bio-Film.			
Clean all touch points such as door edges and door handles.		<i>Split! Non-Detergent</i>	Microfiber Cloth
Odor caused by Bio-Film in the restrooms and other areas are caused by limited or poor cleaning.			
Using detergents that will leave residue, will attract more dirt and Bio-Film.			
By removing the Bio-Film in restrooms and other areas, you will be left with no odor.			
Leaving just the smell and look of a clean environment			
Equipment Needed:		Notes:	
<p>Always wear appropriate Personal Protective Equipment.</p> <ul style="list-style-type: none"> • Microfiber Cloths-wet cleaning • Microfiber Cloths-dry cleaning • Microfiber Dusting Tool • For hard to reach areas use proper safe equipment with extension poles 	<p>Display wet floor signs where needed.</p> <ul style="list-style-type: none"> • Quart Bottles • Trigger Sprayers • Bottle Labels • <i>Split!</i> Restorative Cleaner • <i>Split!</i> Non Detergent Cleaner 	<p>If you can remove dry dirt first with a dry cleaning system, wet cleaning will be much easier and faster. Always follow the "Finest First" rule, which is using the less aggressive and safest method to clean the surface without damaging it. Removing Bio-Film will help to create a healthier environment in the building you are cleaning. Using detergents that leave residue, will attract more dirt and Bio-Film.</p>	

	 Restroom Cleaning Training Card
